## Forest Stewardship Coached Planning Program

This 8-session practical, hands-on course will help forest landowners prepare their own forest stewardship plan with guidance and “coaching” from natural resource professionals. Open to all, this program is designed to help forest landowners develop customized management solutions to meet their own unique objectives. Whether you own 5, 50, or 500 acres of forest, if you want to expand your knowledge and gain confidence for managing your forest, this class is for you.

### Why should I attend?

- To learn about keeping your forest healthy and productive for generations to come.
- To learn how to identify and implement practical steps to meet your individual ownership objectives.
- To write a plan that may qualify your forestland for property tax reduction.
